## **RUGGED RIDGE ANNOUNCES RELEASE OF NEW XHD CORNER GUARDS FOR 2007-2018 WRANGLER JK / JKU**

*Essential Real-World Body Protection for Vulnerable Cab Corners*

**Suwanee, Ga. ( May 1, 2018) –** [Rugged Ridge](#)<sup>®</sup>, a leading manufacturer of high-quality Jeep<sup>®</sup>, truck and off-road parts and accessories, today announced the release of its new XHD Corner Guards for 2007-2018 Jeep Wrangler JK / JKU models.

The Rugged Ridge XHD Corner Guards are designed to protect an area that is most susceptible to damage, both off-road and on. The rear corners of the body tub are often clipped by passing obstructions because they extend well past the vehicles wheelbase. With the taillight housing bolted to its face, events that damage the rear corners are common and usually expensive to repair.

The XHD Corner Guards are built from high-strength three millimeter thick plate steel that is precision stamped to match the body contours of the JK for a secure fit, forming a shield of protection for the body panel.

Finished with an extremely durable and attractive black textured powder coat, XHD Corner Guards resist rust and corrosion while defending against the threat of rock chips and dings.

Rugged Ridge XHD Corner Guards incorporate a built-in taillight guard that fully surrounds the tail lights housing forming an impenetrable barrier of steel; reducing the risk of damage in even in the harshest off-road conditions. Available for both two-door and four-door models, XHD Corner Guards also include a license plate mounting bracket, installation hardware and instructions.

The Rugged Ridge XHD Corner Guards are backed by an industry-leading five-year limited warranty and are available online and through select Jeep and off-road parts & accessories retailers nationwide with an MSRP of \$222.16.
