**RUGGED RIDGE INTRODUCES NEW LED LIGHT BAR MOUNT
FOR '07-'15 JEEP® WRANGLER**

*Easy Install, No-Drill Design Incorporates Added Lighting Above the Windshield,
Creating a Clean, Functional Off-Road Look*

Suwanee, Ga. (November 2014) – [Rugged Ridge®](#), a leading manufacturer of high-quality Jeep® accessories, today introduced a new LED light bar mount for the 2007-2015 Jeep Wrangler (JK) with a unique design that makes it the most advanced light bar mount on the market.

Rugged Ridge’s new LED Light Bar Mount features a unique contour hugging design that requires no drilling whatsoever for easy installation. **Photo Credit:** Omix-ADA

Each light bar mount is constructed from sturdy two-inch welded steel tubing and is secured to the vehicle using specially engineered A-pillar brackets that replace the OE units, meaning no drilling is needed whatsoever for installation.

The contour hugging bar frames the windshield, accommodating three of Rugged Ridge’s [13.5-inch LED Light Bars](#) with low profile tabs, and incorporates a special wind deflector; providing additional illumination on the trail for nighttime off-roading and preventing the whistling sound often associated with similar LED lights.

“The great thing about this mount is that in addition to providing a space for supplemental lighting, each bar is engineered to match the contours of the Jeep’s windshield; not only providing a great look, but also preventing interference with the factory hard or soft top,” said Chris Van Buren, a Design Engineer at Omix-ADA.

The Rugged Ridge LED Windshield Light bar is backed by Rugged Ridge’s 5-year limited warranty and will be available late fall online and through select Jeep and off-road parts/accessories retailers nationwide with an MSRP of **\$266.99**.

For more information about the new LED Windshield Light Bar, Rugged Ridge’s complete line of high-quality Jeep and off-road products, or to find an approved retailer, please contact Rugged Ridge at 770-614-6101 or visit www.RuggedRidge.com.
